PERSONAL PROJECTS

Boulotedey

📅 2024- Present   📍 Yaounde Cameroon
🔗 boulotdey.vercel.app
ullstack Developer (React, TypeScript, Node.js, MongoDB)

- Developed Boulootdey, a Cameroonian job board platform, as my personal project work, focused on providing job opportunities for "petit métier" (small jobs).
- Design and is build the app, which connects local job seekers with employment opportunities.
- Front-end development using React and TypeScript, building a clean, user-friendly interface for job postings and searches.
- Integrated RESTful APIs to handle job data and user authentication, and implemented MongoDB for efficient data storage.
- Contributed to improving the local job market by connecting hundreds of job seekers and employers within the first 6 month
